    <h1>CSS Text & Font Properties</h1>

    <p>
        This paragraph demonstrates various CSS font and text properties
such as
        font-size, font-family, font-weight, font-style, text-align,
        text-decoration, line-height, and letter-spacing.
        These properties help control the appearance and readability of
text
        on a web page.
    </p>

```

```
<p class="strike">
  This text uses line-through text decoration.
