LECTURE 6: DOM Manipulation

By: Dr.MD.Sirajuddin

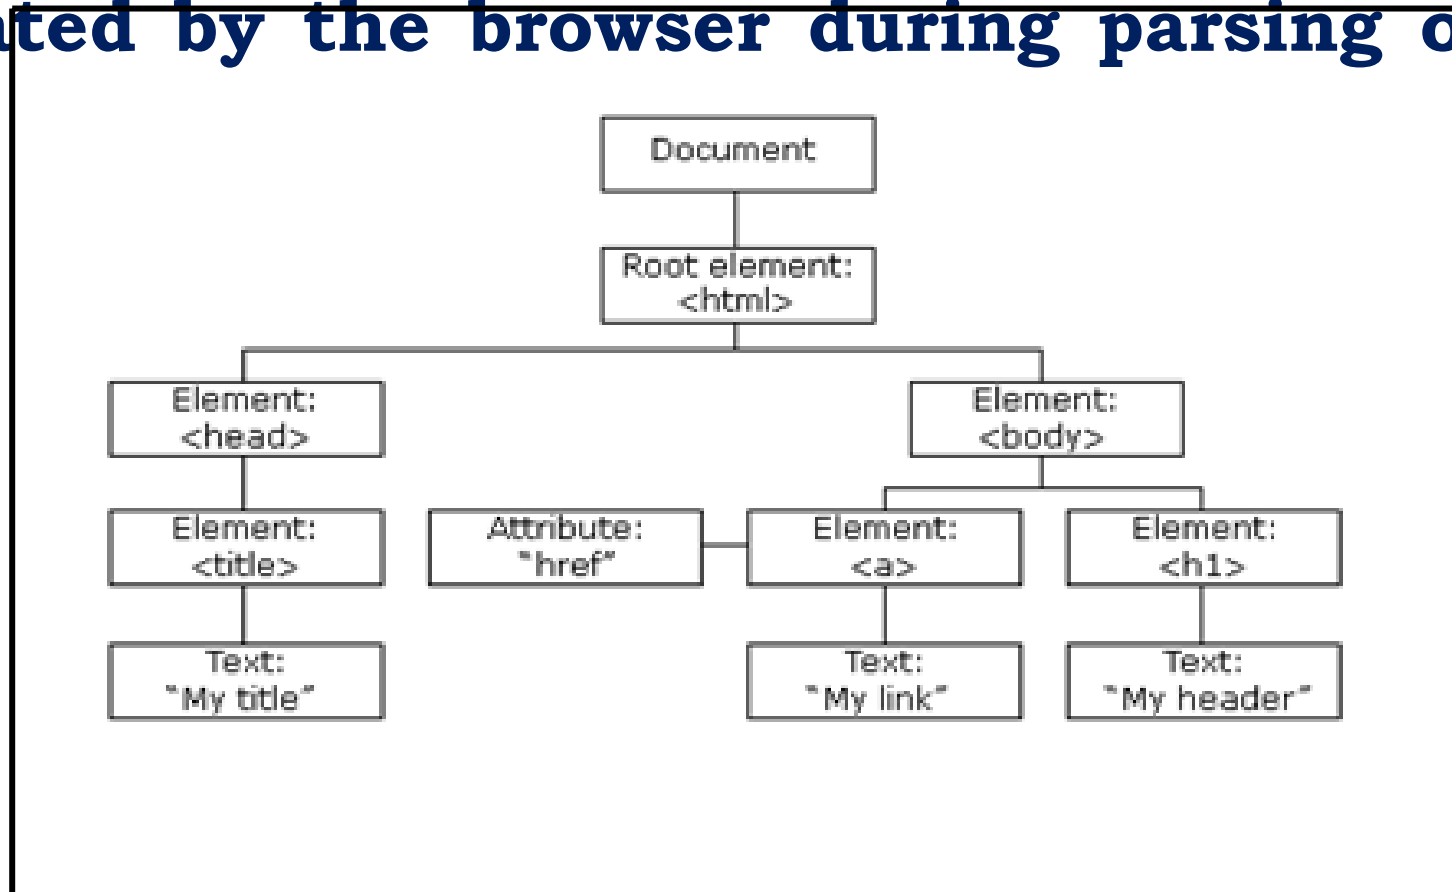

DOCUMENT OBJECT MODEL (DOM)

- DOM is a tree-like representation of a HTML document that allows JavaScript to interact with web page elements.
- It is created by the browser when the webpage is loaded.

DOCUMENT OBJECT MODEL (DOM)

- DOM is a tree-like representation of a HTML document that allows JavaScript to interact with web page elements.
- It is created by the browser during parsing of the HTML page.

DOM Manipulation

- It is the process of changing the structure, content or style of a web page by using JavaScript.

getElementById(id)	Select element by ID
<code>document.getElementById("demo").innerText= "Hello";</code>	

querySelector(selector)	Select first matching element
<code>document.querySelector(".box").style.color = "red";</code> <code>document.querySelector("#id").style.color="blue";</code>	

querySelectorAll()	Selects all matching elements.
<code>document.querySelectorAll("p").forEach(p => p.style.color = "blue");</code>	

innerText	Changes the text
<code>document.getElementById("msg").innerText = "Welcome";</code>	

DOM Manipulation

innerHTML

Used to get & Change the content of HTML element

```
document.getElementById("p1").innerHTML = "<b>New text!</b>";
```

setAttribute()

Sets an attribute value

```
document.getElementById("img").setAttribute("src", "photo.jpg");
```

style

Changes the style of HTML element

```
document.getElementById(id).style.property= new style
```

createElement()

Creates a new HTML element

```
const p = document.createElement("p");
```

DOM Manipulation

appendChild()	Adds an element to the DOM
document.body.appendChild(p);	

remove()	Removes an element from the DOM
document.getElementById("demo").remove();	

```
const img = document.createElement("img");
```

```
img.src = "image.jpg";
```

```
img.alt = "My Image";
```

```
document.body.appendChild(img);
```

DOM Manipulation

```
<!DOCTYPE html>
```

```
<html>
```

```
<body>
```

```
<h1 id="id1">VIT-AP</h1>
```

```
<button type="button"
```

```
onclick="document.getElementById('id1').style.color = 'red'  
">
```

```
Click Me! </button>
```

```
</body>
```

```
</html>
```

Example
